CYGALLE HEALING SPA LAUNCHES HOLISTIC LIFESTYLE CONCEPT

Spa Combines Luxury with Comprehensive Wellness Programs Including Yoga, Holistic Health Counseling and Chakra Realignment

NEW YORK – March 24, 2009 – The Cygalle Healing Spa at Casa de Campo, a luxury holistic spa founded by Cygalle Dias, has introduced a number of new treatments to their spa menu this season to provide a deeper level of rejuvenation for every aspect of a visitor's life. Utilizing both advanced technology and treatments influenced by ancient remedies, the Cygalle Healing Spa's philosophy aims to provide vacationers with a relaxing and revitalizing experience through organic treatments, Holistic Health counseling, yoga, chakra realignment, and healthy menu suggestions at the resort's upscale restaurant choices.

New offerings at the Cygalle Healing Spa this season break away from the traditional spa fare of facials and massages and incorporate 360 degrees of whole body wellness with:

- Amansha Yoga
- Chakra Balance Reading and Chakra Alignment to identify energetic challenges in the body.
- Holistic Health Counseling, a diet and nutrition counseling program, through which clients are offered recommendations and dietary planning from a combination of both Eastern and Western perspectives.
- Healthy menu suggestions in partnership with restaurants Le Cirque and La Casita at Casa de Campo.

Several new offerings at The Cygalle Healing Spa utilize advanced technological methods in conjunction with facial treatments made on-site in the Spa Pharmacy from indigenous herbs and plants. These options include:

- An application of pure oxygen can complement a visitor's facial and promote cell renewal. This leaves the skin feeling balanced and purified with a youthful glow.
- A high frequency application is also available to complement a facial and help deeply cleanse, revitalize, and balance the skin tone to reduce fine lines.

One of the specialty aspects of the spa remains the Spa Pharmacy. Formulas at the Spa use only responsibly harvested plants, indigenous to the Dominican Republic. This guarantees freshness and protects the environment by eliminating the need to ship in products from other locations. Products mixed at the Spa Pharmacy are preservative free and have an integrity not found in mass-produced health and beauty formulas.

The Cygalle Healing Spa also offers an organic women's and men's product line that include 100% organic cleansers, toners, serums, masques and moisturizers formulated to create a sensory journey. The product line will be launching in the U.S. and online in April 2009.
