**FOR IMMEDIATE RELEASE**

**CYGALLE HEALING SPA'S SILVER SPARKLE NAIL POLISH LIGHTS UP THE RUNWAY DURING NYC FASHION WEEK**

*Fun-Loving Nail Polish Likely to Become a Big Trend this Spring*

NEW YORK – September 24, 2008 – The Cygalle Healing Spa (CHS), a luxury holistic spa founded by Cygalle Dias, provided the 80's inspired silver sparkle nail polish seen on the models at the Charlotte Ronson show during Fashion Week. The dazzling nail polish made quite impression on onlookers – positioning it for a serious comeback this spring.

The polish was chosen by Charlotte Ronson in conjunction with spa founder Cygalle Dias to compliment the look and feel of Charlotte's spring 2009 collection, which many have called young hipster and early 80's Madonna inspired.

"Many of the trend's we're seeing this spring are inspired by the fun and feminine sides of fashion," stated Cygalle Dias, founder of Cygalle Healing Spa. "Sparkle nail polish perfectly embodies both of these. I also find it lifts my spirits when I wear it."

Cygalle Healing Spa was also backstage at the show previewing its new organic facial product line and providing a spa sanctuary for the models. At the sanctuary, spa therapists offered manicures, pedicures, aromatherapy, hand massages, and highly desired foot massages using Cygalle Healing Spa Ylang Ylang essential oil to help pamper the models prior to the catwalk. Some notables at the show and backstage include Lindsay Lohan, Tara Subkoff, Samantha Ronson, Anne Dexter-Jones, and Fern Mallis.

The new facial line includes 100% organic cleansers, toners, serums, masques, and moisturizers formulated to create a sensory journey. For more information on the spa and products, visit [www.cygallehealingspa.com](http://www.cygallehealingspa.com).

### **ABOUT THE CYGALLE HEALING SPA**

The Cygalle Healing Spa, the newest addition to Casa de Campo resort, originated as a mobile healing sanctuary under the artful direction of founder Cygalle Dias; it promoted relaxation and overall wellness at special events and spa days in elite homes. The spa resided in the Hamptons in summer 2006, with Ms. Dias producing wellness retreats in East Hampton and Southampton. This was followed by New York Fashion Week in September 2006, where the Cygalle Healing Spa went backstage at the Zac Posen, Charlotte Ronson and Temperley shows. In February 2007, in addition to working for Mr. Posen and Ms. Ronson at New York Fashion Week, the Cygalle Healing Spa traveled to London Fashion Week, where top designers including Giles Deacon with Katie Grand, Julien MacDonald and Christopher Kane featured the spa. Most recently, Dias' nail therapists gave treatments to models and Stella McCartney backstage at the launch of the designer's resort collection, which was a perfect fit since Dias has just launched her first permanent location at a famous Caribbean resort. The Cygalle Healing Spa continues to create private mobile spas for clients, recently providing treatments at the Kabbalah Centre of New York.
