VIRTUOSO
HOTELS & RESORTS

LOCATED ON THE SOUTHEAST COAST OF THE DOMINICAN Republic, Cygalle Healing Spa at Casa de Campo is an ecofriendly sanctuary that offers indoor and outdoor spa services, homeopathy, a signature collection of holistic beauty products, and 100 percent natural body treatment products made in small batches on site at the Spa Pharmacy using indigenous ingredients. Guests have the choice of receiving treatments while surrounded by a lush Zen garden, in one of the spa suites, or in the privacy of a hotel room—including the new Elite rooms—or spacious villa home.

Serenity, rejuvenation, and indulgence permeate every treatment offered by the master therapists at the lavish spa. Guests traverse a 2,800-square-foot spherical labyrinth inspired by the archetypal form used by cultures worldwide to symbolize a path toward self-integration. This ritual experience allows guests to cast off impurities and open their minds and bodies to revitalization. Afterwards, clients enter the spa, which features eight private suites, secluded nooks for meditation, and Asian-style hot and cold plunge pools. Reflecting pools in the reception area offer a serene spot for savoring fresh juices, coffees, and medicinal teas.

The spa's holistic treatments, products, and detoxifying regimens quench the body while bringing peace and healing to the soul. Therapists and nutritional counselors also teach the principles of an ongoing natural, healthy lifestyle.
